

BUSH FIRE POLICY

Bushfires are an inherent part of Australia’s environment. Bushfires can significantly impact on lives, property and the environment. The basic factors that determine whether a bushfire will occur include the presence of fuel, oxygen, and an ignition source. The intensity and speed the bushfire will spread depends on the current temperature, fuel load (fallen bark, leaf litter, small branches), fuel moisture (dry fuel will burn quickly, damp or wet fuel may not burn at all), wind speed, and slope angle.

Emergency management arrangements for fire safety differ within each state and territory and are determined by the State Emergency Services or combined emergency service agencies.

Regulations 97 and 168 (2) of the Education and Care Services National Regulations require that every early childhood education and care service in Australia has an emergency and evacuation policy and procedure which includes:

- a risk assessment to identify the potential emergencies that are relevant to the service;
- instructions for what must be done in the event of an emergency and evacuation procedures;
- an emergency and evacuation floor plan and
- the rehearsal of emergency and evacuation procedures every 3 months. (<https://www.legislation.nsw.gov.au/#/view/regulation/2011/653/chap4/part4.2/div5/reg97>)

This policy outlines the strategies and procedures Medowie Gumnut Preschool will adhere to in the event of a bush fire, including information about Service closure during an emergency evacuation and forms part of our Service’s **Emergency Management Plan (EMP)**. The EMP records the emergency management arrangements to ensure every reasonable precaution to protect children, staff and visitors from harm and hazard is maintained at all times.

NATIONAL QUALITY STANDARD (NQS)

| QUALITY AREA 2: CHILDREN’S HEALTH AND SAFETY | | |
|--|------------------------|---|
| 2.2.1 | Supervision | At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard. |
| 2.2 | Safety | Each child is protected. |
| 2.2.2 | Incident and emergency | Plans to effectively manage incidents and emergencies are developed in consultation with relevant authorities, practiced and implemented. |

QUALITY AREA 7: GOVERNANCE AND LEADERSHIP

| | | |
|-------|--------------------|---|
| 7.1.2 | Management Systems | Systems are in place to manage risk and enable the effective management and operation of a quality service. |
|-------|--------------------|---|

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS

| | |
|-----|---|
| 12 | Meaning of serious incident |
| 51 | Conditions on service approval (safety, health and wellbeing of children) |
| 89 | First Aid Kits |
| 93 | Administration of medication |
| 97 | Emergency and evacuation procedures |
| 98 | Telephone or other communication equipment |
| 168 | Education and care services must have policies and procedures |

PURPOSE

At Medowie Gumnut Preschool we aim to ensure every reasonable precaution is taken to protect children and staff from harm and hazards likely to cause injury, including potential injury from bushfires. The potential for extreme fire conditions varies greatly throughout Australia, both in frequency and severity. Each state and territory have varying mandatory regulations for implementing policies and procedures for being safe in areas where bushfires occur. Medowie Gumnut Preschool will adhere to the regulations outlined by our Regulatory Authority within our state or territory and be familiar with relevant legislation and other special requirements such as building regulations, traffic restrictions or emergency announcements that may apply to the area our service is located.

SCOPE

This policy applies to children, families, staff, management, and visitors of Medowie Gumnut Preschool.

IMPLEMENTATION

It is vital for Medowie Gumnut Preschool to be informed and prepared for bush fire conditions and respond appropriately during periods of high fire danger or local bush fire activity. This policy is to be implemented should a bush fire threaten our Service. During peak bush fire season, the nominated supervisor will monitor fire ratings through relevant authorities on a daily or hourly basis and communicate with all stakeholders as required. We are aware of our Fire Danger Rating and have appropriate fire safety equipment installed and maintained at all times.

Our Emergency Management Plan (EMP) ensures all staff are trained to use fire safety equipment and through regular training, understand evacuation procedures in case of an emergency.

DEFINITIONS

The Australian climate is frequently hot, dry, and susceptible to drought. The widely varied fire seasons are reflected in the continent's different weather patterns. For most of southern Australia, the danger period is summer and autumn. For New South Wales and southern Queensland, the peak risk usually occurs in spring and early summer. The Northern Territory experiences most of its fires in winter and spring.

A '**Bush fire prone area**' is an area of land that can support a bushfire or is likely to be subject to bushfire attack. Bush fire prone maps are prepared by local councils and governments within each state and territory. Baseline data for bushfire prone areas is referred to as Bushfire Attack Level (BAL).

Bushfire at-risk register (BARR): a register listing schools, kindergartens and childcare facilities. This register is managed through the Department's emergency and natural disasters area.

Fire danger rating (FDR): provides an indication of the possible consequences of a fire. This rating is standardised across all Australian states and territories. The higher the fire danger rating, the more dangerous the conditions. Ratings range from *Low* to *Moderate*, to *Catastrophic*. FDR are maintained and updated by emergency services in each state or territory.

Emergency Management Plan (EMP): identifies the nature and range of possible emergencies and hazards to which children and staff may be exposed and the response and procedure in the event of an emergency. Effective planning and preparation of the EMP within the workplace ensures optimal response to emergencies should they occur. A risk assessment to identify potential emergencies that impact the service form the basis of the EMP.

MANAGEMENT/NOMINATED SUPERVISOR WILL:

- ensure the *Emergency Management Plan* (EMP) is updated regularly inclusive of Emergency and Evacuation policies and procedures (see Appendix 1 for further information about inclusions)
- consult with relevant authorities for guidance and advice on the management of bushfire risk and emergencies
- submit EMP to regulatory authority, RFS, CFA or other agency by due date if required
- establish an Incident Management Team (IMT) to lead the implementation of the Emergency and Evacuation Plan- (e.g. Chief Warden, Planning officer, communications officer, operations officer) or in smaller services, assign multiple roles for educators/staff

- conduct a risk assessment to identify a potential bush fire risk to the Service
- ensure the risk assessment considers-
 - prevention measures Medowie Gumnut Preschool will take prior and during the bush fire period
 - procedures to be taken when there is a bush fire in the local district
 - response measures the service will take if confronted with a bush fire hazard or emergency
 - identified evacuation assembly areas and evacuation routes
 - procedures to ensure children are only released to persons authorised to collect them
 - mechanisms to ensure visitors and contractors are aware of the service's emergency response procedures
- contact the local council or use a program (such as that available at <https://www.rfs.nsw.gov.au/plan-and-prepare/building-in-a-bush-fire-area/planning-for-bush-fire-protection/bush-fire-prone-land/check-bfpl> for NSW) to determine if you are in a bush fire prone area
- ensure a current emergency and evacuation floor plan of the Service is clearly displayed near each exit of the service
- ensure emergency drills, including a bush fire drill are practiced with educators and children every 3 months [see Bush Fire Response Procedure]
- ensure a record is kept of each emergency evacuation drill practiced
- ensure Medowie Gumnut Preschool and educators are prepared for bush fire conditions and prepared to respond quickly and appropriately during high fire danger periods
- ensure all fire safety equipment is installed and maintained regularly- (fire extinguishers, fire panels, smoke detectors, long hoses with nozzles, buckets etc.)
- ensure all outdoor taps are in working order
- communicate with staff, educators, and families about bush fire preparation information and provisions
- discuss Bush Fire Response Procedure at team meetings and make any amendments as required
- ensure local emergency services have current contact details, including mobile number for emergency contact after hours
- ensure a clear and effective communication procedure during an emergency is implemented
- organise and communicate with off-site evacuation sites about emergency arrangements
- ensure the Fire Danger Rating (FDR) is checked daily. **Australian Government Bureau of Meteorology** <http://www.bom.gov.au/?ref=hdr>
- ensure gutters are cleaned out and free from dry leaves and other debris
- trim trees to 2m from the Service building
- ensure flammable items are removed from the Service
- ensure all emergency exits are clear and accessible at all times

- conduct an 'emergency first aid kit / backpack audit' to ensure emergency contact information and supplies are current (*see Appendix 2 for suggested inclusions*)
- ensure all records of attendance of children, staff and volunteers are accurate each morning
- ensure current emergency phone numbers are near the phone, including emergency services and the Regulatory Authority and in the contacts of designated mobile phones
- monitor the bush fire situation when the rating is above **High** through internet or radio
- ensure the *Fires Near Me* app (NSW Rural Fire Service); is installed on designated Service mobile phone
- not accept children for care on days when there is an extreme or catastrophic danger rating
- cancel any outdoor activities on days where air quality due to bushfire smoke may cause harm to children [see Bush Fire Smoke Procedure]
- be prepared for closures of the Service on days when Catastrophic Fire Danger Rating (FDR) is issues in the NSW Fire Area
- notify the Regulatory Authority in the event of any closures or damage to premises within 24 hours or as soon as possible via the NQA ITS or email if there is no access to phones.

EDUCATORS WILL:

- assist in the development and review of Medowie Gumnut Preschool's Emergency Management Plan (EMP)
- examine the Medowie Gumnut Preschool grounds during their daily indoor and outdoor safety checks to ensure flammable and/or combustible materials (e.g. dead leaves and bark, chemicals) have been removed
- ensure they are familiar with the daily Fire Danger Rating (FDR)
- ensure the emergency first aid kit / backpack is organised and stored in an area that is easily accessible
- become familiar and confident with Medowie Gumnut Preschool's emergency evacuation policies and procedures
- participate in emergency drills, including Bush Fire Response procedures at least every 3 months
- become familiar with the Service's emergency exits
- be aware of the designated assembly area
- eliminate all papers around the Service, including artwork, posters, displays and emptying garbage bins if advised that bush fires are in the local district
- keep up to date with professional development and training about bush fires and emergency evacuation procedures
- be familiar with their role and responsibilities in the event of a bush fire.

APPENDIX 1

The purpose of the Emergency Management Plan is to ensure the health, safety and wellbeing of all staff, children and visitors at our Service in the event of an emergency.

EMERGENCY MANAGEMENT PLAN inclusions

- Name and address of the Service
- Early childhood service facility profile (description of the service)
- Emergency contact details of Service (including designated mobile phone number)
- Incident Management Team structure and contact details and responsibilities
- Incident Management Team responsibilities- pre-emergency/during emergency/post-emergency
- Communication tree- Process for notifying, alerting and reporting emergencies
- Educators/staff trained in first aid (names and contact details)
- Emergency response procedures (on-site evacuation/relocation procedure; off-site evacuation procedure; lock down procedure; lock out procedure; shelter-in-place procedure)
- Arrangements for children/students and educators/staff with additional support needs
- Parent/family emergency contact details
- Evacuation diagram and procedures including assembly points and transportation arrangement if required to evacuate
- Essential services on premises- location of hydrants and water main

- A site-specific Risk Assessment identifying the particular emergency and hazards, assessing the risks they present and details on how your service will manage these.
- For Bush Fire Policy the Risk Assessment will detail-
 - prevention measures the Service will take prior and during the bush fire period
 - procedures to be taken when there is a bush fire in the local district
 - response measures the service will take if confronted with a bush fire hazard or emergency
- Emergency response drills schedule
- Emergency kit checklist
- Testing of equipment
- Response procedures for specific emergencies – indicate process for making decisions
 - warning staff and children
 - evacuation
 - shelter and assembly area
 - location of designated emergency exits
 - location of fire hoses/extinguishers/ fire blankets
 - location of first aid kits
- Recovery measures to support the return to the Service and routines
- Notification to Regulatory Authority
- Trauma counselling and description

APPENDIX 2

EMERGENCY KIT CONTENTS CHECKLIST

Use the list below as a guide on what is required to maintain your Emergency Kit

| | |
|---|---|
| EMERGENCY KIT CONTENTS | ✓ |
| Small portable First Aid kit | |
| Copy of Bush Fire policy & Emergency Management Plan | |
| Copy of Service's site plan identifying exits from building, safe spaces to shelter and assembly points | |
| Emergency contact details for children | |
| Emergency contact details for staff | |
| Details of additional/medical needs of staff and children | |
| Potentially required medications (e.g. EpiPen, asthma inhaler) | |
| Charged mobile phone/s | |
| Phone chargers to suit any mobile phone likely to be used in an emergency | |
| Fully charged UHF radio (remote locations) with charger | |
| Portable battery powered radio | |
| Torch and spare batteries | |
| Whistle/s | |
| Service keys | |
| Staff safety vests | |
| Bottled water and disposable cups | |
| Non-perishable snacks (such as biscuits/crackers, dried fruit, energy/muesli bars) | |
| Spare nappies, baby wipes, and gloves | |
| Tissues | |
| Sunscreen and spare hats | |
| Garbage bags | |

| | |
